# 17-GALLON SLIM TRASH CAN WITH HANDLE

**Black**
# ALP477-8-17-BLK

**Gray**
# ALP477-8-17-GRY

Every space has that spot: the narrow gap beside the desk, the corner of the kitchen, the sliver of wall between the sink and the door, where a bulky trash can never quite fits. So the overflow ends up on the counter, the bag sags against the cabinet, and the clutter you were trying to hide sits in plain view. The **Alpine 17-Gallon Slim Trash** Can was made for exactly that spot. Its narrow, space-saving profile slides in flush against a wall, tucks beside a desk or fits neatly under a counter, while the 17-gallon capacity holds a full day's waste so you're not running to the dumpster every few hours.

When it's time to take it out, the built-in side handles give you a secure, comfortable grip for lifting, carrying and emptying. Made from tough, lightweight polypropylene, the can stands up to the bumps and scrapes of daily use, won't rust or corrode like metal, and holds its shape in a wide range of environments. At just 4.8 lbs, it's easy to move, rinse out and reposition whenever your space changes.

Complete your setup with Alpine's matching accessories. Top it with a Swing Lid in black or grey to keep trash out of sight and odors under control, while the self-closing swing door still lets you toss waste in with one hand. When the can is full, set it on the Alpine Rectangular Trash Can Dolly and roll it to the curb or loading dock on smooth casters instead of carrying it. Choose classic black or neutral grey, and give every busy corner of your home or workplace a can that finally fits.

## FEATURES

**Space-Saving Slim Profile: T**he narrow rectangular design slides flush against walls, into corners, beside desks and under counters, fitting tight spots where a standard round trash bin cannot.

**Generous 17-Gallon Capacity:** Holds a full day's worth of waste in busy kitchens, offices and break rooms, so you can go longer between emptying.

**Built-In Side Handles:** Molded handles give you a firm, comfortable grip for lifting, carrying and tipping the can to empty it.

**Durable Polypropylene Construction:** Made of 100% polypropylene that stands up to daily wear in high-traffic homes and workplaces.

**Weather-Resistant:** Holds up in a wide range of environments, indoors or out, without cracking or warping.

**Corrosion-Resistant:** At just 4.8 lbs, it's easy to move, rinse out and reposition wherever you need it.

**Lightweight and Easy to Clean:** Won't rust or corrode like metal cans, so it keeps its look over time.

**Open-Top Convenience:** Use it open for quick, hands-free tossing in fast-paced areas, or add a compatible lid when you want waste covered.

**Compatible Lid Options:** Fits the Alpine Slim Trash Can Swing Lid, available in black or grey to match your can (sold separately).

**Dolly Compatible:** Sits securely on the Alpine Rectangular Trash Can Dolly (sold separately), letting you roll a full can on casters instead of lifting it.

**Two Color Options:** Available in classic black or neutral grey to blend in with any décor.

**Versatile Use:** Ideal for offices, kitchens, restrooms, break rooms, classrooms, retail stores, hotels, healthcare facilities and homes.
