CUTOUT

END PANEL

END PANEL FLANGE

FILE CART SIDE RETURN BEND

#8 x ½"
SHEET METAL
SCREW

1.) Flip file cart upside down (as shown). Take end panel and with cutout down slide flange on end panel behind return bend on file cart side. Push end panel into file cart side.

2.) Secure end panel to file cart side using (3) #8 x ½" sheet metal screws inserted through the clearance slots in file cart side and into end panel.

3.) Repeat steps (1 & 2) for other side of cart.
