PREVENTION

DELIVERY SYSTEMS AND SOLUTIONS FROM PDI

EVIDENCE-BASED SOLUTIONS FOR INFECTION PREVENTION AND CONTROL

Fighting deadly infections and reducing cross-contamination are worldwide problems. Working with prominent healthcare institutions and industry thought leaders, PDI has developed convenient and effective product solutions for hard surface disinfection, hand hygiene and topical skin antiseptics.

Our ability to provide evidence-based solutions for infection control is a direct result of:

- Conducting extensive product efficacy and safety studies
- Educating healthcare professionals on best practices
- Working with healthcare professionals to monitor outcomes

COMMITMENT TO EDUCATION

Medical Science Liasons are part of the PDI team of experts. They conduct continuing education training sessions at customer sites and assist in educating healthcare professionals on ways to reduce the risk of infection transmission.

THE OPTIMUM DELIVERY SYSTEM

Pre-moistened wipes offer the most versatile and efficient method for the delivery of liquids to surfaces whether for personal hygiene, cleansing, disinfection or treatment. By combining the optimum substrate material and dispensing package with the appropriate formulation and friction (from wiping action) a more effective result is obtained than by using sprays, liquids, gels or dry wipes alone. For healthcare professionals on the go, the portable delivery system is critical and convenience encourages compliance.

CORPORATE AND SOCIAL RESPONSIBILITY

Taking an active role in protecting people and the environment is top priority. PDI offers products that minimize packaging and feature materials from sustainable sources. From product development through distribution, PDI continually reduces waste, recycles materials and minimizes movement of products through the supply chain to reduce our carbon footprint.

INTRODUCTION

CHLORASCRUB™ SWAB, SWABSTICK & MAXI

CHLORHEXIDINE GLUCONATE & ISOPROPYL ALCOHOL

For preoperative and preinjection skin preparation, PDI offers a variety of top quality skin antiseptics to meet the needs of the healthcare professional.

CHLORASCRUB™ SWAB

Features and Benefits

Chlorascrub, the first and only 3.15% Chlorhexidine Gluconate (w/v) and 70% Isopropyl Alcohol (v/v) solution, kills more than 99% of bacteria with a 15 second preparation and 30 second dry time. Chlorascrub™ Swabs are the ideal choice for preinjection skin preparation.

SWAB

- Preinjection skin preparation¹
- Achieves >2 log₁₀ in 30 seconds and maintains 2 log₁₀ bacterial reduction for at least 24 hours
- Easy-to-use prep pad design covers a 6.25 square inch treatment area

A. CHLORASCRUB™ SWAB

for preinjection skin preparation

CHLORASCRUB™ SWABSTICK & MAXI SWABSTICK

Features and Benefits

A single application using Chlorascrub™ Swabstick and Maxi Swabstick maintains prolonged antimicrobial activity for 7 days.

SWABSTICK

- Preoperative and preinjection skin preparation
- Achieves >3 log₁₀ in one minute and maintains a >3 log₁₀ bacterial reduction
- Achieves a mean 1.5 log₁₀ reduction from baseline at 7 days after a single application when used per label directions
- Square, flat-shaped applicator design allows for better skin contact, particularly in moist skin areas
- Peel-apart² packaging ideal for use in sterile environments

B. CHLORASCRUB™ SWABSTICK

for preoperative and preinjection skin preparation

SWABSTICK

PREOPERATIVE & PREINJECTION SKIN ANTISEPTICS

Description (Size)	Reorder No.	Packaging
A. CHLORASCRUB™ SWAB 1.0 ML (1-3/16" x 3-3/16")	B10800	100/box, 10 boxes/cs
B. CHLORASCRUB™ SWABSTICK 1.6 ML 1's (4-3/4")	S40750	50/box, 10 boxes/cs
C. CHLORASCRUB™ MAXI SWABSTICK 5.1 ML 1's (6")	S41950	30/box, 10 boxes/cs

MAXI SWABSTICK

- Preoperative and preinjection skin preparation
- Achieves >3 log₁₀ in one minute and maintains a >3 log₁₀ bacterial reduction
- Achieves a mean 1.5 log₁₀ reduction from baseline at 7 days after a single application when used per label directions
- Round, flat applicator design for larger area preoperative skin preparation
- Peel-apart² packaging ideal for use in sterile environments

¹ A 15 second application plus 30 second dry time with the Chlorascrub™ Swab on the forearm resulted in a 2.7 log₁₀ reduction of microbial count; thus, exceeding FDA requirements of 1 (one) log₁₀ reduction for preinjection prepping.
² Chlorascrub™ Swabstick and Maxi Swabstick peel-apart in non-kit package. Tear open package if taken from kit.

C. CHLORASCRUB™ MAXI SWABSTICK for preoperative and preinjection skin preparation

ANTISEPTICS

ALCOHOL PREP PADS AND SWABSTICKS

FOR TOPICAL ANTISEPSIS PRIOR TO

PDI Alcohol Prep Pads and Swabsticks provide rapid-acting skin antiseptics in non-sterile and sterile formulas. Also available, PDI Acetone Alcohol Prep Pads with 10% acetone for easy defatting and skin drying.

PDI ALCOHOL PREP PADS AND SWABSTICKS

Features and Benefits

- Manufactured according to current FDA regulations
- Meets the highest bacteriological standards
- Contains 70% Isopropyl Alcohol
- Available in different sizes for a variety of uses
- Provides optimal absorbency for scrubbing and cleansing

PDI PVP IODINE PREP PADS & SWABSTICKS

ANTIMICROBIALS FOR PROVEN

PDI Povidone-Iodine provides longer germicidal activity than ordinary Iodine solution, is non-irritating and virtually non-stinging for better patient comfort. Perfect for venipuncture, I.V. starts, kidney dialysis, pre-op prep, and other minor invasive procedures.

PDI PVP IODINE PREP PADS & SWABSTICKS

Features and Benefits

- Cleansing Scrub Swabsticks (A and B) saturated with a 7.5% Povidone-Iodine cleansing scrub solution with detergents (equivalent to 0.75% available Iodine) to scrub away dead skin, dirt, and oil so prep pads and swabsticks can be more effective
- Duo-Swab® (C) contains one cleansing scrub swabstick and one antiseptic swabstick in a convenient 2-step package
- Prep Pads and Swabsticks (D, E, F and G) saturated with a 10% USP Povidone-Iodine prep solution (equivalent to 1% available Iodine) to provide proven antiseptics

SANI-HANDS® ALC & SANI-HANDS® FOR KIDS

ANTIMICROBIAL ALCOHOL GEL HAND WIPES

PDI's Sani-Hands® ALC is the number one hand sanitizing wipe in healthcare. Sani-Hands wipes are ideal for patient, resident, healthcare worker and visitor hand hygiene.** They can help facilities comply with Joint Commission National Patient Safety goal 7.*

SANI-HANDS® ALC (A-D) & SANI-HANDS® FOR KIDS (E-G)

Features and Benefits

- Antimicrobial gel kills 99.99% of germs
- Mechanical friction created by using wipe is proven to remove bacteria and soil
- Does not leave sticky residue
- Clinically proven to moisturize skin after repeated use
- Provides the right amount of active when needed
- Fragrance-free and dye-free
- Contains 65.9% ethyl alcohol with moisturizing Aloe, glycerin and Vitamin E
- FDA food code compliant; perfect for bed-bound patients/residents
- Cleans and sanitizes hands when soap and water are not available
- Convenient quick pull canister and individual packet options
- Canister features a unique deep-well lid that makes dispensing easier

Description (Size)	Reorder No.	Packaging
A. SANI-HANDS® ALC - LARGE CANISTER (6" x 7.5")	P15984	220/can, 6 cans/cs
B. SANI-HANDS® ALC - MEDIUM CANISTER (6" x 7.5")	P13472	135/can, 12 cans/cs

HYGEA® ADULT CARE

FOR IMPROVED PATIENT CARE

Our family of patient care products is developed and produced with the highest level of consistent quality, providing convenience, comfort and caring to the patient, resident and caregiver.

HYGEA® WIPES AND MULTI-PURPOSE WASHCLOTHS

Features and Benefits

- Clinically proven to be mild, gentle and safe for use as part of a daily cleansing or incontinence care routine
- Hypoallergenic, alcohol* and natural latex free
- Light, fresh fragrance
- Contain soothing Aloe, and Vitamin E to moisturize and care for the skin
- Manufactured in the US to the highest quality standards

A. FLUSHABLE WIPES

- Soft and gentle moist toilet tissue
- Safe for sewers and septic systems

B. PREMIUM MULTI-PURPOSE WASHCLOTHS

- Disposable extra large (9.5" x 11.5") textured washcloth for more convenient cleansing of all areas of the body.
- Suitable for both a freshen up and daily incontinence care
- Easy open and close Solo lid

C. PERSONAL CLEANSING WASHCLOTH

- Single fold opens easily with one hand
- Extra-large disposable washcloth (115 sq. in.)

HYGEA® ADULT CARE (CONT.)

DESIGNED ESPECIALLY FOR IMPROVED

D-F. MULTI-PURPOSE WASHCLOTHS

- Large (8" x 12") washcloth for easy and convenient cleansing of all areas of the body
- Suitable for both a freshen up and daily incontinence care
- Available in 48 count, 60 count and 96 count packs

G. HYGIENIC CLEANSING TOWELETTE

- Provides prompt relief from localized discomfort
- For use by both men and women
- Contains a soothing natural ingredient
- Cleanses and soothes

H. SHIELD 'N PROTECT WIPE

- Forms protective film on skin for tapes and dressings
- Removes easily
- Natural latex free

I. OBSTETRICAL TOWELETTE

- For personal hygiene at every napkin change and whenever cleansing/refreshing is needed

J. STERILE SALINE WIPE

- Eliminates cross-contamination and waste of bottled saline solution
- For post-operative eye care and dressing change and newborn eye care
- Saturated with 3cc's of sterile saline

K. SALISWAB ORAL HYGIENE SWABSTICK - 3'S

- Alleviates Xerostomia or dry mouth
- Aids salivary flow, oral lubrication
- Individual foil packets prevent contamination
- Pleasant Black Currant flavor

L. LEMON-GLYCERIN SWABSTICK - 3'S

M. LEMON-GLYCERIN SWABSTICK - 1'S

- Premoistened Swabsticks with gentle lemon-flavored glycerin
- For use post operatively and for swabbing whenever special oral healthcare is needed

PDI DISPENSING SYSTEMS

MOBILE & STATIONARY COMPLIANCE

The ability to place, dispense and use all forms of Sani-Cloth® and Sani-Hands® products where they promote usage and compliance by healthcare workers, patients and visitors is a key factor to reducing cross-contamination and infection in any setting.

- The new Sani-Bracket® 3-in-1 holds ALL Sani-Hands® and Sani-Cloth® (Medium, Large and Extra Large canisters)
- The Sani-Bracket® floorstand holds ALL Sani-Hands® (Medium and Large canisters) and Sani-Cloth® (Large and Extra Large canisters)
- PDI Infection Prevention Pak™ provides an efficient way to dispense individual packets of ALL Sani-Hands® and Sani-Cloth® products for disinfection of transport equipment and for hand hygiene.
- Promotes usage & compliance with Joint Commission National Patient Safety Goals & Elements of Performance (see Strategic Placement floorplan on page 26 - 27)
- Accessory kits allow for optimal bracket usage
