

USER GUIDE

Product Name: 36 Gal Trash Can With Dome Lid

Color: Silver

Overall Product Size: Bottom Dia.24-1/4", Top Dia.28-1/4"" , Height 32-3/8"

Material: Galvanized Steel with thermoplastic powder coating

It is a heavy-duty waste bin that is suitable for high traffic areas such as parks, streets, buildings, and other public facilities. Its rigid construction and high capacity keeps the area clean and allows for an efficient waste disposal. It is constructed from galvanized steel that is reinforced with circular bands and rolled edges, and is expertly welded for lasting durability. This waste receptacle can hold up 36 gallons of waste materials. It is coated with polyester powder to deter vandalism. Other great features include hands-free disposal to prevent the spread of germs, rain cap lid to prevent rain or snow from seeping into the container, anchor kit, and metal liner. It comes fully assembled with a 1-year limited warranty for additional peace of mind.

Prior to assembly please make sure that you have the following parts and hardware listed:

Dome Lid;

Expansion Screws;

Installation:

1. Place the parts on a sturdy surface and attach Dome Lid to the barrel.
2. Place the barrel on solid ground with expansion screw fix to ground and then tighten the screws.
