

ALP4422-GRN

40 Gallon Dual Slated Trash Can

Make a bold, functional statement in your outdoor space with this 40-Gallon Dual Slated Trash Can in vibrant powder-coated green. Built to handle demanding public settings, its high-visibility finish blends beautifully with parks, campuses, and facility grounds while encouraging proper disposal at a glance. With heavy-duty steel construction and a sleek, slatted design, this can is more than just durable, it's a visual upgrade for any high-traffic environment.

Two removable flat lids with built-in retaining cables stays secure but lifts off easily when needed, while the included plastic liners simplify cleanup and helps contain spills. The dual-sided opening allows convenient use from any direction, and pre-drilled holes make it easy to mount securely to the ground for added stability. Whether you're outfitting a city walkway or a recreational site, this trash can deliver lasting performance, and makes a cleaner, greener impact from the ground up.

FEATURES

Durable: The powder-coated steel body is built to endure outdoor elements and heavy public use.

Visible: Its bold green finish stands out in any setting, making it easy for users to spot.

Removable: The flat lids lifts off easily and includes retaining cables to keep it securely in place.

Clean: Two included plastic liners help contain leaks and can handle a large quantity of waste.

Convenient: Dual-sided openings allow access from multiple angles, perfect for high-traffic areas.

Secure: Pre-drilled holes allow the unit to be mounted to the ground for added stability.

Efficient: Designed to handle large volumes of waste with minimal maintenance required.
