

ALP478-42-BLK

MaxDuty 42 Gallon Outdoor Plastic Trash Bin

Engineered for maximum endurance in the most demanding commercial and public environments, the MaxDuty 42-Gallon Outdoor Plastic Trash Bin is built to take a beating and keep on performing. Constructed from heavy-duty, impact-resistant structural plastic, this receptacle absorbs heavy bumps, knocks, and rough daily wear without denting, cracking, or losing its structural integrity. Its all-weather, UV-inhibited formulation stands up effortlessly to blistering sun, torrential downpours, and freezing temperatures, ensuring it never fades or warps outdoors. The sophisticated vertical wood-grain texture not only elevates your property's exterior aesthetic far beyond standard industrial metal drums but also brilliantly conceals minor scuffs and surface scratches from everyday high-traffic use.

Designed for ultimate operational efficiency and user convenience, this high-capacity 42-gallon bin minimizes the need for frequent emptying in busy spaces like parks, school campuses, corporate courtyards, and outdoor dining areas. The four-sided open-top hood allows quick, touch-free waste disposal from any angle, while the clever top-rim design securely locks trash bags in place and completely hides unsightly liners from view for a clean, professional appearance. Combining industrial muscle with a sleek, clean profile, the MaxDuty trash bin delivers a reliable, low-maintenance waste management solution that looks immaculate year after year.

FEATURES

Industrial-Grade Construction: Built from heavy-duty, impact-resistant structural plastic designed to absorb heavy knocks, bumps, and rough daily wear without denting, cracking, or losing structural integrity.

Massive 42-Gallon Capacity: Large-volume interior minimizes the need for frequent emptying, providing a reliable, low-maintenance waste solution for high-traffic environments.

All-Weather & UV Resilience: Formulated with UV inhibitors to withstand blistering summer sun, heavy downpours, and freezing winter temperatures without fading, warping, or degrading.

Four-Sided Waste Access: The open-top hood configuration features wide disposal openings on all four sides, allowing quick, touch-free trash disposal from any angle.

Secure Bag Management: Equipped with an easy-lift top rim that firmly anchors and locks trash bags in place, preventing slippage into the bin.

Modular, Easy-Assembly Design: Can be fully disassembled for optimized shipping and simple, straightforward assembly during setup.

FEATURES

INDUSTRIAL-GRADE CONSTRUCTION

Heavy-duty, impact-resistant plastic withstands daily wear, bumps, and knocks.

WOOD-GRAIN EXTERIOR

Vertical wood-panel design enhances outdoor spaces while concealing minor wear.

SECURE BAG MANAGEMENT

Easy-lift rim securely holds bags in place and prevents slipping.

EASY-LIFT RIM

42
gallon
CAPACITY

FOUR-SIDED WASTE ACCESS

Wide openings on all sides allow quick, touch-free disposal from any angle.

ALL-WEATHER & UV-RESISTANT

Resists fading, warping, and degradation in sun, rain, and extreme temperatures.

CONCEALED DESIGN

Hood and rim hide plastic bags for a clean, polished appearance.

SPECIFICATIONS

Capacity	42 Gallons
Primary Material	HDPE (High-Density Polyethylene) / Heavy-Duty Structural Plastic
Color/Finish	Black with Vertical Wood-Grain Texture
Disposal Access	4-Sided Open-Top Hood Access
Product Dimensions	20.07" L x 20.07" W x 40.94" H
Product Opening Size	12.6" L x 6.0" H (side-open windows)
Product Weight	44.09 lbs.
Includes	16 pcs. M5 x 25 Self-Tapping Screws
Spare Parts Included	2 pcs. M5 x 25 Self-Tapping Screws
Certifications/Testing	High Corrosion Resistance
Compatible Garbage Size	39.4" L x 47.2" W with a thickness of 1.57 mils.
