The Science Behind BrewerDesign's Ergonomic Seating

As a dental professional, your work often necessitates leaning and bending forward while seated. This causes increased muscle contractions and imposes greater force on vulnerable structures of your spine. As you will testify, prolonged sitting without adequate support or adjustability results in muscle fatigue and pain in the lower back and neck region.

Brewer Design, the most trusted name in dental seating, has conducted years of extensive research in response to your needs. Utilizing a pressure mapping system, we have designed contoured seats and lumbar supports to eliminate pressure points and pinching. We have combined the latest technology with superior materials and workmanship to bring you the most innovative seating available today.

Three exclusive ergonomic systems have been developed that enable you to customize seating around both your seating preference and ergonomic needs. Features of our 9000, 9100, 9200 Series include...

Superior seating.

Synchronized movement of the saddle-style seat and lumbar support allows for proper weight distribution and neutral posture while performing day to day procedures, promoting muscular health

The specifics.

21.5" diameter powder-coated; 5-leg cast aluminum base with poly-tread casters
5-year warranty

Operator's

Optional height columns:
15.5" - 20"; 18.5" - 24.5"; 20.5" - 26.5";
22" - 31"

Assistant's

Contoured, ratcheted and fully adjustable body support
Left and right body support models available
Adjustable footring standard
Height: 24" - 32"

9000 Series

The original ergonomic stool offers thick, plush upholstery with a deeper, cut out seat and full size backrest.

9100 Series

All the benefits of our original ergonomic stool with smaller, sleek upholstery. Flexible waterfall seat is underlined with polyurethane to allow maximum flexibility while working.

9200 Series

The best of both worlds, this stool features the deeper seat from our 9000 Series coupled with the smaller, sleek backrest from our 9100 Series.

11001 Series

Traditional pneumatic stools designed for comfort.

Round, 16" seat cushion
23" Brushed cast aluminum base
5-year warranty

11001B-D - Operator's Stool

Contoured backrest
Pneumatic height adjustment 18" - 24"

11001FR-D - Operator's Stool (high height)

Pneumatic height adjustment 20" - 27.5"
Adjustable footring standard

11001FRA-D - Assistant's Stool

360° adjustable body support arm
Pneumatic height adjustment 20" - 27.5"
Adjustable footring standard
