

## Recording Chart Paper

Covidien manufactures one the largest offerings of recording chart papers in the industry. With more than 50 years of manufacturing experience, our customers can expect consistent trace quality as well as a product that is designed to meet or exceed the instrument specifications.

- Compatible with monitors of major manufacturers including GE Medical, Philips (Agilent) and Spacelabs
- Full line of recording charts for antepartum and intrapartum monitoring
- Easy-to-read grids with extended timelines at one-minute intervals
- Pages numbered consecutively for easy referencing and documentation
- End of pack warning alerts clinicians when 30 minutes remain
- Full line of video imaging

*Covidien paper products follow the Forest Stewardship Council (FSC) "chain of custody" process that identifies our paper products originate from a FSC certified forest.*
