

[Increased Versatility]

Enhancing the User Experience

Endo GIA™ Ultra Universal Stapler

Covidien's new Endo GIA™ Ultra Universal stapler combines ergonomic design, precise articulation and one-handed grasping for increased versatility—enhancing the user experience.

Ergonomic Design

- Shorter reach of loop handle facilitates use of stapler by surgeons with smaller hands
- Improved unload button simplifies removal of reload after firing
- Soft grips on handle and articulation knob facilitate control

Precise Articulation and One-Handed Grasping

- Ten points of articulation enhance precision of approach to target tissue/vessel
- Surgeon-controlled articulation of up to 45 degrees on either side provides improved access to surgical sites
- One-handed grasping mechanism allows for grasp and release of tissue by movement of loop handle

Versatility

- Forward and backward compatibility—Endo GIA™ Ultra Universal staplers can be used with all existing Endo GIA™ Universal Reloads, Duet TRS™ Reloads and Endo GIA™ Reloads with Tri-Staple™ Technology
- Three shaft lengths deliver greater flexibility for procedure-specific use
