

Mobile Computer Station

One of the newest additions to our computer security line of products, the Mobile Computer Station is the ideal solution for mobile workstations. Great for use anywhere from warehouses for inventory and garages for diagnostics to educational buildings where teacher's don't have permanent rooms.

- Durable construction from heavy duty steel makes this a very reliable, portable workstation.
- Lockable tambour door on unit provides security for stored equipment.
- Grommets on upper work surface and side panels for easy cable management.
- Pull out keyboard shelf and mouse tray for ergonomic comfort
- Internal shelf for storage of peripherals such as printers, or personal effects and office supplies.
- Body of workstation available in 19 standard paint colors and melamine top available in 13 standard colors.
