

Vu-Stak[®] Modular Filing Systems

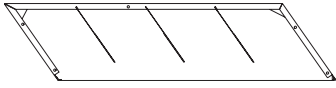

Compatible with
Jeter, Garrett & Vu-Max

Datum's Vu-Stak® Filing System provides the solution to your open shelf filing needs allowing for the most efficient use of your valuable floor space. Designed to be used in conjunction with color coded side tab folders, all Vu-Stak® tiers come with fixed welded dividers and a sleek profile, making it an ideal choice for Letter, Legal, and X-Ray file storage. Tiers can be configured up to 6 levels high for X-Ray file jacket storage, and up to 8 levels high for letter and legal document storage. All Vu-Stak® tiers are easy to assemble and can be expanded or reconfigured at any time.

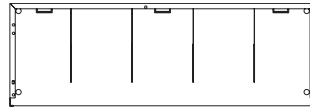

Two Vu-Stak® Designs Available!

Slant Tiers

Vu-Stak® Slant Tiers' unique modular design combined with a 55° angled shelf result in increased file recognition and visibility for error free filing and faster retrieval. Slant tiers also protrude less into a room, saving valuable floor space. Slant tiers can be combined with Datum's TrakSlider™ for maximum filing efficiency. Slant tiers are only available in letter and legal depth.

Straight Tiers

Vu-Stak® Straight Tiers allow individual shelves to be stacked up to eight levels, creating custom solutions to unique storage needs. Stacking shelves allows maximum use of floor space and additional shelves can be added at any time for greater expandability. Available in X-Ray, Letter, and Legal, Datum offers a wide choice of options to meet your storage needs and budget.

X-Ray tiers (shown above right) can be combined with Datum's TrakSlider™ and can be configured up to 6 levels high. Full height dividers ensure that X-Ray jackets remain upright. X-Ray Tiers are not available in the Slant Tier design.

Vu-Stak® offers storage of X-Ray jackets in addition to letter and legal storage. X-Ray tiers can be mounted on track and can be configured up to 6 levels high. Full height dividers ensure that X-Ray jackets remain upright.

Features & Benefits

Posting Shelf & Spacer

- Vu-Stak® posting shelves are available for both straight and slant tiers to provide a fully retractable convenient work surface.
- Utilize spacers to create even height shelves with aesthetic look.

Various Sizes Available

All Vu-Stak® tiers are available in 3 widths, 24", 36" and 48". This flexibility allows you to combine various widths to maximize your storage area.

Standard Paint Finishes

Vu-Stak® is available in all 12 Standard Datum colors. Please contact your local Datum representative or the Datum factory for more information, color charts or color samples.

All Datum products have a powder coated finish. Powder coating provides a superior, attractive, uniform finish that is more durable, scratch and corrosion resistant, and more environmentally friendly than liquid paint.

Fixed Welded Divider

All Vu-Stak® tiers come with our exclusive fixed divider which is welded to the back and underside of each shelf. This design results in a smooth surface for protection against torn folders and ease of filing.

TrakSlider™

Datum TrakSlider™ Systems utilizing Vu-Stak® Straight or Slant tiers more than doubles storage capacity by converting stationary files into movable systems that require just a fraction of the original floor space. Datum's unique design eliminates fixed aisles between shelves that reduce retrieval time while increasing user efficiency.

Just a simple push of the hand effortlessly moves the files to the side to access information stored in the rear. Yet, half of the unit remains accessible.

A variety of configurations (see diagrams) offers a wide range of space-saving storage possibilities. TrakSlider™ Systems are the most flexible and efficient way to increase filing capacity.

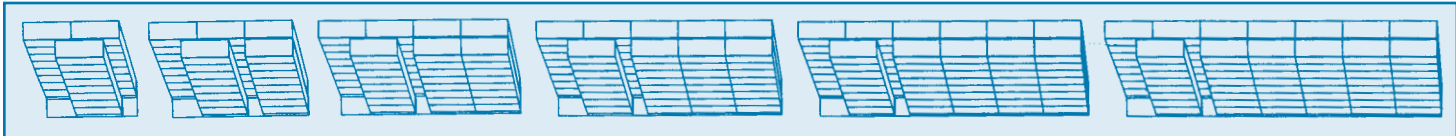

TrakSlider™ Systems are designed with an overhead stabilizer bar for your peace of mind.

TrakSlider™ Systems are engineered with specially designed rubber end-stops, and smooth rolling wheels for easy access to materials. Perfect for commercial businesses, medical offices, and attorney offices.

TrakSlider™ Systems with Vu-Stak® Straight tiers are available up to 7 stationary units and 6 movable units. TrakSlider™ Systems with Vu-Stak® Slant tiers are available up to 6 stationary units and 5 movable units.

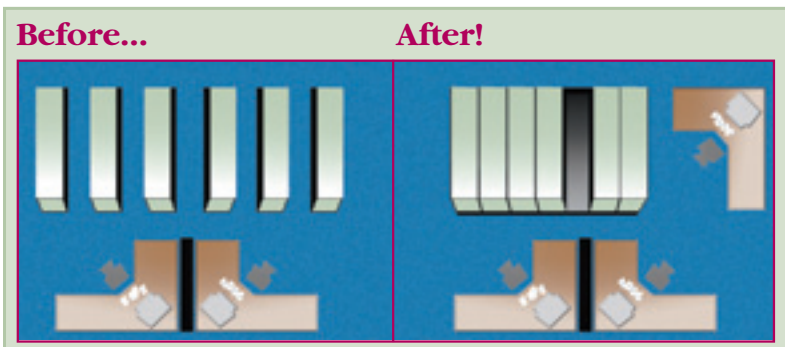

To receive additional information on Datum's TrakSlider™, please contact your local sales representative or contact the factory.

MobileTrak5®

And for Even Greater Capacity...

Vu-Stak® tiers can be used in conjunction with Datum's MobileTrak5® for the ultimate in storage efficiency. By eliminating all but one aisle, this mobile storage solution can increase usable floor space by up to 50%!

Example Below:
