

HYGEA®

Flushable Personal Cleansing Cloths

NEW DISPERSIBLE CLOTH

Breaks Apart After Flushing and is Safe for sewers and septic systems

OLD

NEW!

- **Now dispersible:** New EcoSperse™ dispersible technology allows the cloth to break apart after flushing, and passes the INDA/EDANA flushability testing guidelines
- **Better for the environment:** New EcoSperse™ dispersible cloths contain 88% biodegradable fibers, and soft packaging contains over 70% less plastic than the previous tub
- **Easy to dispense:** Hygea® cloths dispense like tissues
- **Clean more area with one cloth:** New Hygea® cloth size is 12% larger than before
