

Needlestick prevention that **meets your needs**

- ▶ Virtually eliminates exposure
- ▶ Single-handed, passive activation
- ▶ Hands remain behind the sharp
- ▶ Integrated safety mechanism
- ▶ Prevents recapping and needle removal
- ▶ Remains safe through disposal
- ▶ Easy to use, requires minimal training
- ▶ Safe and effective for patients

Catalog No.	Description	
VanishPoint® U-100 insulin syringes 100 per box/800 per case		
15391	0.5mL VanishPoint insulin syringe (half-unit)	30G x 3/16" NEW
15371	0.5mL VanishPoint insulin syringe (half-unit)	30G x 5/16" NEW
15291	0.5mL VanishPoint insulin syringe	30G x 3/16"
15271	0.5mL VanishPoint insulin syringe	30G x 5/16"
15221	0.5mL VanishPoint insulin syringe	30G x 1/2"
10291	1mL VanishPoint insulin syringe	30G x 3/16"
10271	1mL VanishPoint insulin syringe	30G x 5/16"
10281	1mL VanishPoint insulin syringe	29G x 5/16"
10211	1mL VanishPoint insulin syringe	29G x 1/2"

1mL VanishPoint® syringes 100 per box/800 per case		
10131	1mL VanishPoint tuberculin syringe	27G x 1/2"
10151	1mL VanishPoint tuberculin syringe	25G x 5/8"
10161	1mL VanishPoint syringe	25G x 1"

VanishPoint® Allergy Syringe Tray 25 per tray/1000 per case		
10134	1mL VanishPoint allergy syringes	27G x 1/2"

3mL VanishPoint® syringes 100 per box/600 per case		
13021	3mL VanishPoint syringe	27G x 1 1/2"
10301	3mL VanishPoint syringe	25G x 5/8"
10391	3mL VanishPoint syringe	25G x 1"
13011	3mL VanishPoint syringe	25G x 1 1/2"
10311	3mL VanishPoint syringe	23G x 1"
10321	3mL VanishPoint syringe	23G x 1 1/2"
10331	3mL VanishPoint syringe	22G x 1"
10341	3mL VanishPoint syringe	22G x 1 1/2"
10351	3mL VanishPoint syringe	21G x 1"
10361	3mL VanishPoint syringe	21G x 1 1/2"
10371	3mL VanishPoint syringe	20G x 1"
10381	3mL VanishPoint syringe	20G x 1 1/2"

5mL VanishPoint® syringes 100 per box/600 per case		
10mL VanishPoint® syringes 100 per box/600 per case		

5mL and 10mL VanishPoint® syringes are available with a variety of needle lengths and gauges. For a complete list, please contact RTI or visit our website at www.retractable.com.

VANISHpoint
SYRINGES

The new standard for safety®

A study comparing the effectiveness of passive SED (safety-engineered devices) with that of active SED, concluded that passive SED (such as the VanishPoint® syringe) significantly reduced the needlestick injury rate.¹

Attached needle design:

- Maintains a closed system
- Prevents leakage and contamination
- Reduces deadspace
- Prevents unnecessary needle changes

"Changing needles between drawing vaccine from a vial and injecting it into a recipient is unnecessary."²

Safe for you and your patients

1

Use standard procedure for drawing up medication.

2

Prepare and give injection using aseptic technique according to institutional policy.

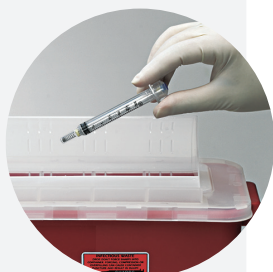

3

While the needle is still in the patient, fully depress the plunger to activate retraction.

4

Dispose of VanishPoint® syringe in an appropriate sharps container.

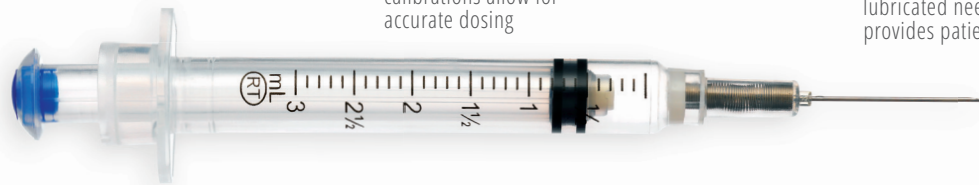

THE VANISHPOINT® ADVANTAGE

Effective safety with automated retraction technology

Clear, unobstructed calibrations allow for accurate dosing

Triple beveled, lubricated needle provides patient comfort

EASY, ONE-HANDED ACTIVATION

NO CONTAMINATED SHARP EXPOSED

Needle retracts directly from patient into syringe

Pre-removal activation prevents exposure to contaminated sharp

VanishPoint® insulin syringes **NOW AVAILABLE WITH**

- 5mm and 8mm needles
- Half-unit increments for accurate small dose delivery

Activated VanishPoint® syringes require less disposal space than other safety syringes and prevent disposal-related injuries.

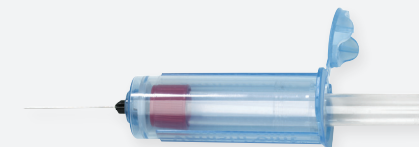

Other available safety products
