## WOODEN WET FLOOR SIGN

White/Grey

The traditional yellow sign has its place, but your space deserves a safety solution that speaks the language of luxury. Our Modern Wooden Wet Floor Sign tells a story of thoughtful hospitality, trading industrial plastic for the rich, organic texture of genuine rubberwood. Available in a sophisticated Crisp White or a muted Weathered Grey, these finishes were specifically chosen to harmonize with high-end flooring like marble, slate, and polished concrete. Centered on the frame is a sleek brass plate protected by a crystal-clear acrylic overlay, creating a multidimensional look that signals to your guests that every detail of their experience has been curated with care.

Functionality is woven into this elegant design, ensuring that safety is as effortless as it is beautiful. To provide a double measure of protection, the clear acrylic features a bilingual "Caution: Wet Floor" message in both English and Spanish, making your safety protocols universal and clear. When the floors are dry and the workday is done, the sturdy A-frame folds with ease, offering a slim profile for simple storage solutions in tight closets or behind service counters. By combining the warmth of rubberwood with the brilliance of brass and acrylic, you aren't just marking a hazard, you're maintaining the high standards of your brand's aesthetic from the ground up.

### FEATURES

**Effortless:** The slim-profile frame folds with ease, allowing for simple storage solutions in tight service closets or behind host stands when not in use.

**Premium:** A white sign with black lettering beneath a clear acrylic signage face, offers a sophisticated look that signals luxury.

**Protective:** Equipped with non-slip rubber feet on the bottom of each leg, ensuring the sign stays firmly in place on wet surfaces while protecting your delicate marble, tile, or hardwood floors from scratches.

**Durable:** Constructed from high-quality rubberwood, this sturdy A-frame design offers a weighted, reliable alternative to flimsy plastic cones.

**Universal:** The neutral white and grey tones make it the perfect safety addition for galleries, boutiques, luxury hotels, and modern spas.

## FEATURES

Crisp  
White

Weathered  
Grey

**AESTHETIC**  
Available in two rubberwood finishes designed to disappear into modern decor rather than clash with it.

**BI-LINGUAL**
