Bravo Mini

24-Hour Ambulatory
Blood Pressure Monitoring System

SUNTECH

The SunTech Bravo Mini

The **Bravo Mini** system from SunTech Medical is a 24-hour ambulatory blood pressure monitoring (ABPM) device.

Data obtained from ambulatory blood pressure monitors is accurate and useful for managing a wide variety of hypertensive situations including white-coat hypertension.

Clinically Validated

The **Bravo Mini** system is independently tested to meet the accuracy and performance requirements of the British Hypertension Society, the European Society of Hypertension International and the ISO 81060-2 standards.

SunTech Motion Tolerance

The **Bravo Mini** device utilizes SunTech proprietary motion tolerant technology, to obtain reliable readings during motion.

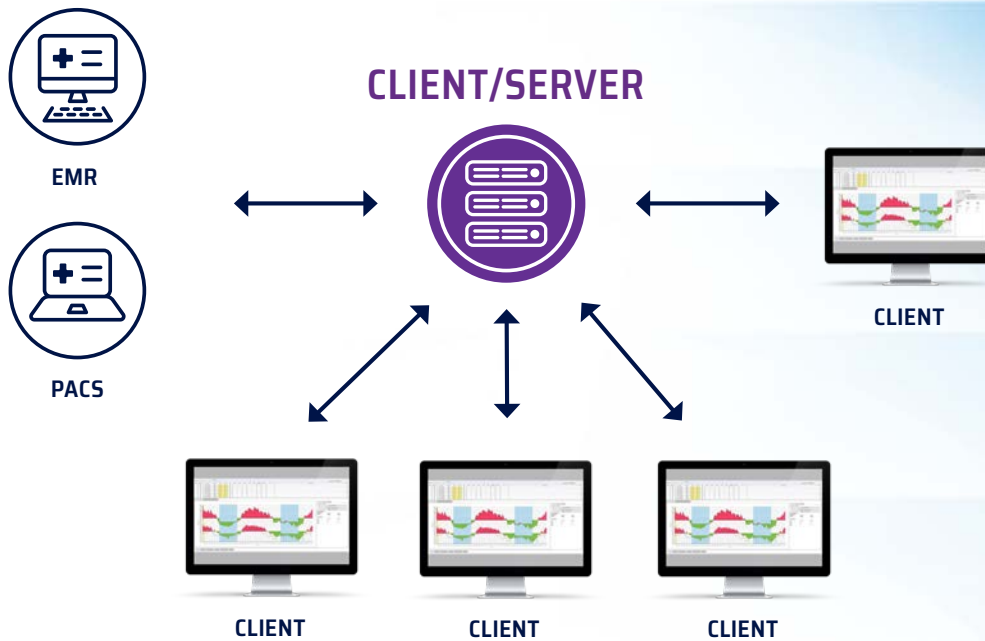

Smart Inflate

Smart inflate algorithm that bases measurement inflation on previous measurements to help protect against over-inflation and provide patient comfort.

Client - Server Software

Access patient information from across your network with patient data securely stored in a networked server.
